

- (6)—Pathburghatta (opposite the town of Chittagong) to Jhalda, Parkee, and Gobira, along the south bank of the Karnafoolee, and the sea face, eighteen miles (a).
- (7)—Chandpore on the Sungoo, to Patance on the Arakan road, twenty miles (b).
- (8)—Chandpore on the Sungoo, due south, *via* Juldee to Chunnua, twenty miles (b).
- (9)—Four good bridges across the forty miles of canal.

III.—Cox's Bazar Sub-Division.

- (10)—Arakan road from sudder sub-division boundary to Oukhia Ghat on the Naaf, fifty miles (a).
- (11)—Cox's Bazar town to Ramoo on the Arakan road, ten miles, partly done (a).

N.B.—Roads which should be 12 feet broad are marked (b), roads which should be 16 feet broad are marked (a); no roads in this district need be more than 10 feet broad at the top. All the roads in this district are unmetalled.

We have thus before us (including the incompleting portions of the Ramghur road, thirty-five miles, and of the Hill Tracts road, seventeen miles) about 182 miles of unmetalled road sixteen feet wide with heavy bridging, and forty-eight miles of unmetalled road twelve feet wide with heavy bridging.

16. Besides this, there are the canal improvements already spoken of, and many small village roads and feeders. These latter are now being much attended to. The removal of encroachments is insisted on, zamindars and village headmen are compelled to look to their repair, jungle on either side is cut, and bridges which can be crossed in safety are being constructed. Provided the rest of the road is put in good repair, we now offer to construct the bridges on these village roads up to such a limit as that portion of our income which we annually set aside for this purpose will allow of. Some native gentlemen, amongst whom I may mention Sheikh Abdool Malum and Deputy Collector Baboo Goluck Chunder Rai, are aiding us with liberal contributions towards the construction of roads in the neighbourhood of their villages. In several cases it is found that Mahomedan gentlemen and villagers have bequeathed funds for the maintenance of certain bridges and roads near their homes. Hitherto the object of the bequest has often been forgotten or neglected either wilfully or through the difficulties which in such a case numerous shareholders present; we are taking steps to enforce the observance of the obligation imposed, offering as an alternative to take over and manage the lands so bequeathed, if such an arrangement should be more convenient to the shareholders.

17. What we are at present each year enabled to effect in the way of opening communications is deplorably incommensurate with what should be done, but we can but husband to the utmost such funds as we have and carefully seek to expend them to the utmost advantage.

The following are further details respecting these works:—

1. *Ramghur Road.*—The widening and straightening of this road has been carried out for about 2½ miles between 12th and 15th miles, having a width of 16 feet at top. It has also been turfed. One wooden bridge of 21 feet span with masonry abutment and wing walls, and masonry abutments and wings to a wooden bridge, 46 feet span, have been constructed on the 14th mile. This road has received surface repairs between the 3rd and 15th miles; 33 wooden bridges have been repaired and 8 tarred. It is proposed that during the year 1875-76 the road should be widened and straightened from the 15th to 19th mile, and surface repairs effected from 3rd to 14th miles. Existing bridges will be thoroughly repaired and some of the timber bridges tarred.

2. *Hill Tract Road.*—This road has been constructed three-quarters of mile in length and 16 feet on the top from the village Rohobullapore to Goherah. It has been turfed throughout the three miles complete, and has received surface repairs. Three wooden bridges and one masonry bridge have been repaired, and two wooden bridges tarred. The bridging for the three miles of road is not yet complete. This road will during the year be extended about three miles from Goherah village to the old Ranjan road, and a timber bridge of 64 feet span will be placed over the khal on the third mile. Surface repairs will be executed.

3. *Arakan Road.*—This road has been widened and straightened to sixteen feet on the top from 34th to 38th mile, and about half a mile on the 31st mile. It is not passable for vehicles beyond the 30th mile owing to the absence of bridges. The wooden superstructure over the masonry work of bridge No. 41, 100 feet span, and a culvert No. 43, of 5 feet 9 inches span, on the 30th mile, have been completed. It is not contemplated that new works will be taken in hand in 1875-76, except renewing five wing walls to the culvert and bridges Nos. 22½, 23, and 25 on the 16th and 17th miles, which have been damaged more or less by the floods which swept through the district in the first week of August. The road has received surface repairs from the east bank of the Kurnafuoler to the 29th mile, and is now in good order. Eighteen wooden bridges with wing walls have also been repaired. Surface repairs to the road from the east bank of the Kurnafuoler river to the 38th mile will be made during 1875-76, and the wooden bridges repaired and coal-tarred.

4. *Moishkhali Strand Road.*—This road from the village Gohaidanga, towards Abdul Malam's house at Haliabohur, about one mile in length, with a width of sixteen feet to the top, has been constructed and turfed, and is perfectly passable for vehicles. The road has received surface repairs, and two masonry bridges have been plastered with Portland cement. Stone facing has been put on to the slope of the road 107 feet x 8 feet at Gohaidanga to protect the embankment from the encroachment of the river Kurnafuoler. Surface repairs will be executed on this line of road during the year 1875-76, and it is hoped to complete the remaining half mile to Abdul Malam's house. Rs. 2,000 is required for this, towards which Abdul Malam has offered Rs. 400.

5. *Road from Cox's Bazar to Ramoo.*—Two wooden bridges, each 6 feet by 16 feet, were constructed at a cost of Rs. 115-8. Another wooden bridge, 21½ feet by 12 feet, was constructed on masonry abutments at a cost of Rs. 97-9-6. This road has also been repaired within the limits of the Cox's Bazar municipality. Earthwork by the sides of five bridges was repaired. One wooden bridge, No. 1, 37½ feet by 16 feet, was made on masonry abutments at a cost of Rs. 254-8-2, of which Rs. 20 were advanced before October 1874. Another wooden bridge, No. 2, 29½ feet by 16 feet, was made on masonry abutments at a cost of Rs. 202-5-2. A third wooden bridge, No. 3, 21½ feet by 16 feet, was made on masonry abutments at a cost of Rs. 130-12-11. All these bridges have been strongly constructed of jarool planks, 2½ inches to 3 inches thick. The bridges appear to have been constructed on a scale larger than the traffic or funds warrant; a breadth of twelve feet is ample.

6. *Sluice gate on the Noakhali Canal.*—Angle irons have been fixed for strengthening the gate and wing walls, and a terrace floor constructed.

7. Surface repairs to the following minor roads have been completed:—Robertganje road, Mahajan Hat road, Tipperah Pass, Nussacrahad, Kaloor Ghât, Bakolcah, Halishobur, Moiskhali towing path, Auwarah, Paroikora, Chandpore, Sakcerahpore, Dhulghat, towing paths on the banks of Noakhali canal and Rangoneah roads. Sixteen wooden bridges have been repaired and twenty-three bamboo revetments have been put to the ends of bridges on the Chandpore road; wooden bridges, four on the Robertganje road, one on the Sakcerahpore road, four on the towing paths on the banks of Noakhali canal; two bamboo bridges on the Mahajan Hat road, and one bamboo bridge on the Rangoneah road have been repaired and constructed; two wooden bridges on the Auwarah road have been tarred, seven wooden bridges on the Kaloor Ghât road repaired. These roads will receive surface repairs during the year 1875-76. Necessary repairs to the wooden bridges will be executed.

4. The Committee is little better than a farce; the Road Cess Act and the business done under it are regarded as purely Government measures, and the Chairman and Vice-Chairman are the real managers of the whole. Non-official members take little or no interest in the matter of local improvements, and of official members, the Executive Engineer has not been here once during the year. Some difficulty has been experienced in getting together a quorum for the transaction of business as required by the Road Cess Act, and meetings had to be adjourned on several occasions in consequence. A meeting was convened on the 3rd instant to consider the annual accounts for the past year under sections 88 and 89 of the Act, but as no quorum was found, the accounts are submitted under the Chairman's counter-signature, because to call a new meeting to elect a Sub-Committee and again call a Committee to pass the accounts, will take two or three months more. The Committee is an irresponsible body, and hence care little about the accounts.

5. The following works have been carried out during the cess year ending 30th September 1875:—

- Construction of 38 bamboo bridges and deepening the Attistolly canal have been completed.
- Excavating a canal and constructing spurs to prevent encroachment of Chaprassee khal.

BOGULA PROBOD MOHTYBAR,
Vice-Chairman.

No. 12R., dated Rungamuttie, the 30th October 1875.

From—A. W. R. POWERS, Esq., Officiating Deputy Commissioner, Chittagong;
To—The Commissioner of the Chittagong Division.

I HAVE the honor to forward herewith the annual accounts of the District Road Fund for the year 1874-75, commencing from 1st October 1874 and ending with 30th September 1875. The account of income and expenditure for that period stands as follows:—

Total	16,923	2 9	
Deduct balance at credit of deposit	3,600	0 0
Balance available	13,323	2 9
Total as above	25,568	15 3

2. The sum of Rs. 3,600 shown as balance at credit of deposits was added to the funds of this district in May 1874 by a mistake in the Accountant-General's office. It is shown under that head by the order of the Controller, Public Works Accounts, Bengal. The Treasury Officer and the Accountant-General have been requested to adjust the mistake at their earliest convenience.

3. At the commencement of the year there were Rs. 14,147-0-9 outstanding on account of advances made to Myoni Tipras and others as per Bengal Government letters No. 3071 of 18th May 1872 and No. 1563 of 18th June 1873, received with Commissioner's endorsements No. 257 of 23rd May 1872 and No. 548 of 30th June 1873. At the close of the year there is a balance of Rs. 8,071-4-6 shown as advances outstanding. Out of which a sum of Rs. 1,061-0-9 was advanced to sufferers during the heavy floods in July and August last, and to Public Works Department for surveying the road from Rungamuttie towards Chittagong, leaving Rs. 6,110-3-9 recoverable on account of Road Fund from Myoni Tipras and others. The greater portion of this amount may be recovered during the working season of 1875-76.

4. It was proposed in the budget estimate for 1874-75 to execute works amounting to Rs. 25,568-15-3, but pending a professional survey all works were postponed, the expenditure, which amounts to Rs. 12,245-12-6, has thus fallen short of the original estimate, the balance, Rs. 13,323-2-9, is available for the current year, 1875-76.

5. *Communications, Original Works—Roads and Bridges—South-Eastern Trunk Road, Inshai branch.*—The following works have been executed during the year under review:—An embankment 15 feet in breadth has been made on about two and a half miles of marshy land between Rungamuttie and Chittagong, 600,000 cubic feet of earth excavated at a cost of Rs. 1,334-5-4, debris and boulders removed from a part of that road extending over a mile, and the road widened from two to six feet. Cost Rs. 200.

6. *Ditto.*—About 500,000 cubic feet of earth excavated from Manickcherry Moir, thence enlarging the cutting and reducing the height of that hill by ten feet. Cost Rs. 600.

7. *Ditto.*—Twenty-five bridges, consisting of large trunks of trees, and 67 small bridges constructed on that road. Cost Rs. 630-1-4.

8. *Ditto.*—The roads at Rungamuttie (head-quarters) have been improved and widened at a cost of Rs. 320-3-6.

9. *Ditto.*—About three and a half miles of road from Peakicherra towards Demagiree were improved by deeper cuttings in the sides of rocky hills by felling trees, uprooting stumps, and sunn grass, and removing them from the road; 30 bridges of large logs of wood planed on the top constructed. Cost Rs. 1,492-8.

10. *Ditto.*—On the road from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamuttie, large trees have been cut and removed, stumps of trees and sunn grass cleared, making a foot-path to an extent of 32 miles. Cost Rs. 3,104-2-8.

11. *Communications, Original Works.—River and Canal Works.*—The channel at Utanchutta rapids, between Rungamuttee and Demagiree, has been deepened and improved by cutting a passage through the rocks. At present boats with a cargo of twenty maunds can with ease go to Demagiree. Cost Rs. 306-15-3.

12. *Minor Original Works.*—The masonry revetment on the side of the head-quarters road has been plastered with soorkee and whitewashed at a cost of Rs. 227-5-6. The large well in the bazar at Rungamuttee has been plastered with soorkee and whitewashed at a cost of Rs. 79-15, and a masonry spring well has been constructed for Rs. 419-15, aggregate cost Rs. 499-14. These wells are a great boon to the station, inasmuch as they afford a supply of pure water, and since they have been in working order no outbreak of cholera or dysentery has occurred. The frequent outbreaks which formerly took place were attributed to bad water alone. The masonry ghāt at Rungamuttee has been repaired and plastered with soorkee, and whitewashed. Cost Rs. 246-1-6.

13. *Repairs and Maintenance.—Roads and Bridges.*—Three miles of road from Chunderghona towards Rungamuttee have been repaired by earthwork, amounting to 49,000 cubic feet, and by levelling. Cost Rs. 118-5-4. Twenty miles of road from Rungamuttee towards Chittagong repaired at a cost of Rs. 275-14-8; about two miles of road from Ruma, the head-quarters of the Singoo sub-division, towards Rungamuttee repaired. Cost Rs. 34-2-5.

14. *Establishment.*—Special allowance of Mr. A. DeLozario, Inspector of Police, Rs. 600; salary of Clarifoo, mohurir, Rs. 130, and of two overmen Rs. 150. No other remarks.

15. *Tools and Plant.*—Rs. 1,935-11-9 spent for the purpose of purchasing tools for the use of the frontier police for constructing roads, clearing jungle, and for general purposes (vide Commissioner's letter No. 812 of 11th October 1875), and Rs. 24-16-2 paid for repairing tools, require no fresh comments.

16. Before detailing the works proposed to be undertaken during the year 1875-76, it is necessary to state that the construction of most of the works during 1874-75 on the two roads, first from Rungamuttee towards Chittagong, and second from Ruma, the head-quarters of the Singoo sub-division, to Rungamuttee, have been postponed in order that they may be professionally surveyed and estimated by a professional engineer. A sub-engineer is at present employed in surveying the first-named road; as soon as he completes his work he will be deputed to the other road; but as it cannot be exactly ascertained when he will have finished and to what extent his estimate will amount, all money available for district roads for 1875-76 has been shown in lump sums in the budget estimate above named. I here take occasion to notice the immense damage caused to the Rungamuttee and Chittagong road by the unprecedented rainfall in July and August last, and the consequent floods. Extensive landslides have taken place. Out of 87 temporary wooden bridges, each from 20 to 100 feet in length, which were constructed at much cost and labour over hill streams in previous years, 58 bridges have been washed away, and 17 bridges have been removed from their original positions. Large portions of road along the sides of steep and rocky hills and along the beds of nullahs whose course had been diverted were submerged, and in many such places no vestige of the road can now be traced. Large boulders and débris have fallen on the road from the hills above, and embankments have been swept away here and there. It is hoped that these damages may be repaired before the next rainy season, otherwise much inconvenience will be caused by the interruption of communications.

17. The following works are proposed in the budget estimate for the year 1875-76.—

18. *Communication, Original Works.—Roads and Bridges.—South-Eastern Trunk Road, Lushai Branch Road No. 5* (vide Bengal Government Circular, Public Works Department, No. 69 of 14th September 1875)—Constructing one mile of road at a cost of Rs. 1,000 from Rungamuttee towards Chittagong, by cutting in the sides of rocky hills and by changing the courses of nullahs near Gagra Main and Champalohly.

19. *Ditto.*—Constructing six miles of road at a cost of Rs. 3,000 from Rungamuttee towards Chittagong, by raising the earthwork 3 feet high and 15 feet broad.

20. *Ditto.*—Cutting 500,000 cubic feet of earth from the hill near Rungamuttee, so as to make the road practicable in future for wheeled carts, at a cost of Rs. 1,500.

21. *Ditto.*—Cutting 400,000 cubic feet of earth at Rs. 1,200 from Manickcherry Moin for the above purpose.

22. *Ditto.*—Cutting rocky sides of hills and changing the bed of Sauscherry nullah at a cost of Rs. 600.

23. *Ditto.*—Improving the roads at the head-quarter station of Rungamuttee by widening them from 10 feet to 15 feet. Cost of throwing 100,000 cubic feet of earth Rs. 300.

24. *Minor Works.*—Constructing a dam at Rungamuttee for Rs. 478-8 to collect clean water (vide Commissioner's letter No. 70H. of 14th May 1875).

25. *Ditto.*—Constructing a circuit and staging bungalow at Rungamuttee, portion payable from Road Fund, Rs. 762 (vide Bengal Government letter No. 3935 of 7th August 1875).

26. Constructing 67 temporary bridges for Rs. 2,686, at Rs. 40 each, on the road from Rungamuttee towards Chittagong.

27. *Ditto ditto Road No. 7, ditto ditto*.—Constructing thirteen miles of road out of 66 miles from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamuttee, by cutting and removing jungle, uprooting stumps and roots of trees, and digging out weeds and sunn grass. Cost Rs. 6,500.

28. *Ditto ditto ditto*.—Constructing a road at the head-quarter of the Sungoo sub-division 15 feet broad. Cost of throwing 150,000 cubic feet of earth Rs. 450.

29. *Minor Works*.—Constructing a village road for Rs. 80 from the mouth of Mukbaun to Nulcumbhet, and another for Rs. 240 from the banks of the river Kurnasfootee to the village of Subarechurry.

30. *Communication, River and Canal Works, No. 2, ditto ditto*.—Enlarging and deepening the channel at Utaichuttra between Rungamuttee and Demagiree at a cost of Rs. 500, by cutting and blasting rocks from the bed of the river.

31. *Maintenance and Repairs, No. 2, ditto ditto*.—Repairing three miles of road for Rs. 50 from Chennurghonna towards Rungamuttee, and a bridge for Rs. 20 on that road.

32. *Ditto ditto Road No. 5, ditto ditto*.—Repairing twenty miles of road towards Chittagong twice in the year—once during the rainy season, between July and September, again after the rains in December—by cutting and removing sunn grass and undergrowth of trees, at a cost of Rs. 1,000; removing debris and boulders from one mile of road for Rs. 200; repairing the head-quarters road for Rs. 100; a bridge for Rs. 25; masonry ghât for Rs. 100; whitewashing two wells for Rs. 50, and masonry revetment for Rs. 25.

33. *Maintenance and Repairs, Road No. 7, ditto ditto*.—Repairing 24 miles of road from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamuttee twice in the year—once during the cold weather, and again during the rainy season—by cutting and removing sunn grass and weeds. Cost Rs. 1,200.

37. It is necessary, for reasons mentioned in paragraph 16, to keep the roads from Rungamuttee towards Chittagong, and from Ruma, the head-quarters of the Sungoo, to Rungamuttee, open throughout the year, and it may take a long time before a professional survey and estimates are complete and meet the sanction of Government. Even if that sanction is obtained, it will take years before the road from Rungamuttee towards Chittagong can be made practicable for wheeled carts, which fact has been often brought to notice in previous reports; it is therefore proposed to employ the Myoni Tipperas and others, from whom large advances are recoverable, in executing the works detailed in paragraphs 18, 19, 22, 24, 26, and 28 to 33 of this report, by which not only the communication will be kept open, but a great portion of the advances will be repaid in labour. I trust this proposal will be approved of and sanctioned.

A. W. B. POWERS,
Offg. Deputy Commissioner.

No. 73GM., dated Chittagong, the 28th February 1876.

From—F. E. Lewis, Esq., Commissioner of the Chittagong Division.

To—The Secretary to the Government of Bengal, Public Works Department.

In compliance with the instructions laid down in Government circulars Nos. 50 and 51 of the 23rd July 1873 and 14th August last respectively, I have the honor to enclose herein copies of the reports on local improvements, together with the annual accounts of the District Road Fund for the cess year 1874-75, submitted by the Chairman of the District Road Committees of Chittagong and Noakhally and the Deputy Commissioner of the Chittagong Hill Tracts.

2. The delay in the submission of the above reports is partly owing to the non-receipt of the report and accounts from the Chairman of the District Road Committee, Chittagong.

until the 13th instant, and partly owing to my having had to await the explanations which I called for from that officer as well as from the Chairman of the District Road Committee of Nonkhully with regard to certain discrepancies in the accounts submitted by them. With regard to the date of the submission of the above report and accounts, a reference has also been made by me to Government (*vide* this office No. 4836M., dated 13th December 1875), but no reply has yet been received on the subject.

3. The receipts of the year from tolls and cesses, &c., throughout the division amounted to Rs. 21,954-3-5, which, with the balance and advances outstanding on the 1st October 1875, i.e., Rs. 51,985-0-7, as well as the grant-in-aid from Provincial Funds of Rs. 25,000, made up a total sum of Rs. 1,08,039-4-0 available for works of local improvements in this division for the year under review.

4. Out of the total sum of Rs. 1,08,039-4-0 Rs. 57,726-1-0 were available in the district of Chittagong, Rs. 21,711-0-9 in the district of Nonkhully, and Rs. 25,568-15-3 in the Chittagong Hill Tracts. The total estimated receipts amounted to Rs. 1,01,898-0-7, as shown in the margin, including Rs. 55,858-0-7 the unexpended balance remaining at the commencement of the year under review. From the figures given above it will be seen that the actual receipts in the districts of Chittagong and

Nonkhully exceeded the estimated receipts by Rs. 6,741-5-5. The excess receipts are due to the fact that the annual ferry tolls for the year 1875-76 fetched at public auction larger amounts than were anticipated, and also to the amounts deposited by the ferry farmers being larger.

5. The accompanying statement (marked A.) will show the several heads of receipts and the amounts collected under each head during the past year.

6. The total expenditure of the year amounted to a sum of Rs. 82,229-0-3, against Rs. 70,800-0-0 the preceding year. The following were the chief heads of expenditure, viz. :—

	Rs.	A.	P.
Charges th collection	8,518	5	1
Charges th original works	42,146	7	10
Charges th repairs and maintenance of district works	24,311	14	5
Establishment	1,932	4	10
Purchase th of tools and plant	2,190	0	2
Total	82,229	0	3

First the amount of Rs. 82,229-0-3 just mentioned, Rs. 716 were refunded in the district of Chittagong. The balance at credit at the close of the year amounted to Rs. 25,736-0-0, as detailed below :—

	Rs.	A.	P.
Cash hand	23,701	7	3
Advances outstanding on the 30th September 1875	8,634	8	6
Total	29,336	0	3
Debit balance at credit of deposits	3,600	0	0
Total	25,736	0	3

7. In order to give a clear idea of the charges incurred by the District Committees of Chittagong and Nonkhully, and also by the Deputy Commissioner of the Hill Tracts during each year, the statement marked B. is submitted herewith. If this is compared with the annual accounts of the Deputy Commissioner of the Hill Tracts, it will be observed that there is a discrepancy of Rs. 4-4 in the figures entered in column "Total" under the head "Chargesth collection of revenue under the Committee's control," and also under the head "Purchaseth of tools and plant." The Deputy Commissioner has not furnished any explanation regarding this difference. I have, however, requested that officer to supply the omission now.

8. The following discrepancies are also observable in the quarterly and annual accounts submitted by the Chairman of the District Road Committee, Chittagong :—

	Rs.	A.	P.
Original district original works—			
Amount shown in the quarterly statement as expended	26,766	1	11
Amount shown in the annual statement as expended	27,426	1	11
Difference	660	0	0
Tools and plant—			
Amount shown in the quarterly statement as expended	828	1	7
Amount shown in the annual statement as expended	168	2	7
Difference	660	0	0

Road establishment—		Rs. A. P.	
Total amount shown in the quarterly statement as expended	...	3,422	5 10
Total amount shown in the annual statement as expended	...	3,322	4 10
Difference	...	100	1 0
Charges on collection of revenue—			
Total amount shown in the quarterly statement as expended	...	7,836	15 1
Total amount shown in the annual statement as expended	...	7,808	13 5
Difference	...	61	14 4
Charges on repairs and maintenance of district works—			
Total amount shown in the quarterly statement as expended	...	13,206	2 9
Total amount shown in the annual statement as expended	...	13,244	5 5
Difference	...	38	2 8

9. With regard to these discrepancies the Chairman has submitted the following explanations:—

The amount of Rs. 660 which was expended in the purchase of a ferry boat for Kumaria ferry, and which is now shown in its proper column against heading "Ferries, original works," in the annual accounts, was mentioned under "Tools and plant, other charges," in the fourth quarterly statement. A charge of Rs. 660 having been shown under heading "Original works, ferry boats," in the second quarterly account, which was submitted to the Controller of Public Accounts on the 28th April last, that officer directed that the above amount should be transferred to heading "Tools and plant, other charges." The Chairman accordingly got his office copy of the accounts corrected. For the same reason the sum of Rs. 660 in question was exhibited under heading "Tools and plant, other charges," in the fourth quarterly statement; but in the annual accounts it has been shown against its proper heading "Ferries, original works," and hence this difference.

Rupees 105, charged under the marginally noted heading (a) in the quarterly statement, were transferred to heading (b) by the Controller, the Chairman accordingly corrected his own office copy. The total of quarterly return under heading (a) will therefore be Rs. 3,317-5-10 after deducting Rs. 105 as stated above, and not Rs. 3,422-5-10. The difference of Rs. 4-15 only between the totals 3,317-5-10 and Rs. 3,322-4-10, being the sum expended by the road establishment for contingent expenses. There being no proper heading for such expenses in the quarterly statement, it is included under the heading "Collection of revenue, contingent charges," in the fourth quarterly statement, but it is now shown in its proper column against heading "Contingent charges of the road establishment" in the annual accounts.

Owing to the transfer of Rs. 105 from heading (a) to (b) as represented above, it will be seen that the total of quarterly statement under heading (a) will be Rs. 7,911-15-1 instead of Rs. 7,836-15-1. Between this latter sum and Rs. 7,941-15-1 there is a difference of Rs. 43-1-8, deducting from which Rs. 41, i.e., contingent charges of the road establishment, included under the heading (b) in the fourth quarterly statement, there will be a difference of Rs. 38-2-8, which was by an oversight included under the heading (c), "Contingent charges of ferry establishment," instead of under heading (b), "Contingent charges of collection of revenue," during the compilation of the annual accounts. Now Rs. 76-5-2 shown as contingent charges of ferry establishment under heading (c) has been altered to Rs. 38-2-8, and Rs. 867-10-11 shown as contingent charges under heading (b) is altered to Rs. 905-13-7 in the annual accounts, and the total accordingly increased by Rs. 38-2-8 to Rs. 7,937-0-1.

The difference of Rs. 38-2-8 being reconciled as explained above, the total of the annual accounts under the heading as per margin shown is reduced by Rs. 38-2-8 to Rs. 13,206-2-9.

10. I now proceed to notice other items of importance which require any comments from the Committee.

Committee.—At the close of the year the Road Cess Committee in the Ching district consisted of fifteen members, five official and ten non-official, and in the district of Noakhally the said Committee consisted of seventeen members, of which three were official and the rest

The number of meetings held during the year was seven in Chittagong and eight in Noakholly.

In the former district the Chairman reports that some of the native non-official members, and especially Sheikh Abdool Maloom, Baboo Gopee Mohun Ghose and Kaur Persad Hajari, have taken considerable interest in the subjects discussed before the meetings. The first of these members and Deputy Collector Baboo Goloke Chunder Roy have prominently been brought to my notice as offering liberal contributions towards the construction of roads in the neighbourhood of their villages. In the district of Noakholly, with the exception of the Chairman and the Vice-Chairman, the other members are reported to have taken little or no interest in matters of local improvements. In the Hill Tracts there was no District Road Committee, and everything was managed by the Deputy Commissioner through the agency of his assistant.

CHITTAGONG.

11. *Statement of works.*—As the report and statement of work done and in progress in the Chittagong district, furnished by the Chairman of that district and forwarded herewith, give detailed information of roads and other works executed during the year under review, I refrain from transcribing them here. The total expenditure on original works amounted to Rs. 27,126-1-11, and that on repairs, &c., was Rs. 13,206-2-9. The amount estimated under the former head was Rs. 2,174-3, and the amount of estimated expenditure under the head of "Repairs" was Rs. 15,15-1.

12. It will be seen that the amount actually spent has exceeded the amount originally estimated for original works. The Chairman attributes the cause of this excess outlay to the works executed on two urgent and new roads, viz. road from Chittagong to Rainghur on the Fenny, and the road from Hathajeri on that road to the Hill Tracts boundary, where it will meet the road from Rangamatie, the head quarters of the Chittagong Hill Tracts. The falling off in the expenditure incurred in the repairs to several roads was owing to the undertaking of more surface repairs to the Robergaunge road, the Mahajan's Hat road, and other minor roads.

13. The District Road Committee of Chittagong have estimated only Rs. 18,500 for original works and Rs. 4,000 for repairs during the current year 1875-76. They observe that the contemplated expenditure is, from want of funds, much less than what they should wish to incur, and much less than what is urgently required. They have proposed that in carrying out the present original works, in connection with almost all of which there are old lines of narrow road more or less encroached upon by the ryots, but still with good though narrow bridges, to adhere to the old lines as much as possible, only in special cases (such as where it is remarkably tortuous) diverge from it. In this manner much expenditure in the construction of bridges and the acquisition of land, &c., may be avoided. It is also resolved by them to recover all the lands adjacent to public roads which have been encroached upon by private individuals without authority.

14. The Committee have further, with my approval, determined to concentrate their operations in the north of the district, where the want of roads is severely felt, and to spare as far as possible all other localities until the roads from Chittagong to Rainghur on the Fenny and the road to the Hill Tracts boundary are accomplished. This proposal, as I have said, has been approved, for it is impossible, except at great waste of superintending power and great risk of bad work, to carry on simultaneously important works some forty miles north and some forty miles south of the sadder station. The Chairman reports that the southern and central portions of this district are rich in water-routes, and therefore roads are not so much a necessity there as in the northern portion of it. It appears to me that the condensing of operations and the completion of one or two lines of important road, before taking in hand half a dozen other roads of lesser importance, is manifestly desirable.

It is worth while mentioning here that a work of great importance is at present under contemplation of the Chittagong District Committee. It is the deepening of the Moinkhally canal, in which the merchants are largely interested. The importance of the work as opening a safe outlet from the river Kurnasoulee, the mouth of which is at present rendered difficult for navigation by the formation of new churs, to the Bay of Bengal has also been fully recognised by Government, and has formed the subject of a separate correspondence.

NOAKHOLLY.

15. In Noakholly the total expenditure on original works was Rs. 5,765-11-10 and Rs. 10,704-0-3 were expended on repairs. The amounts estimated under each of these two heads of charges were respectively Rs. 9,590 and Rs. 11,378; it will thus be seen that the District Committee of Noakholly have not spent the full amounts which were expected to be disbursed on original works and repairs, although all the works which were contemplated for execution and which were shown in the budget estimates for the past year appear to have been undertaken during the year. The Chairman has failed to furnish a detailed history of the progress of each work in his annual report now submitted. In short, his report is a meagre one; I have therefore requested him to submit a supplementary report which should be as complete as possible, treating of all matters of importance. A list of all original works and repairs has been furnished by the Chairman with his report herewith forwarded, I need not therefore repeat them in my divisional report.

16. The construction of, and repairs to, village roads have not been carried out fully, nor was provision made in the budget estimate for that purpose owing to the inadequacy of funds. Moreover, the Chairman of the District Committee of Nookhully reports that there is nothing like regular villages in his district, as the homesteads of the residents are widely scattered instead of being grouped together to form a village. Hence, in his opinion, village roads are not very necessary, or their construction practicable in such a manner as to benefit the population.

17. The amount proposed to be disbursed during the current cess year is Rs. 7,075 on original works and Rs. 16,830 on repairs.

The former of these two amounts is comparatively smaller than the amount entered in the estimate of the past year under the head "Original works." The Chairman observes that the works which appeared to the Committee to be of the greatest importance and of urgent nature have been proposed to be undertaken during the current year, and that owing to the inadequacy of the funds the District Road Committee is unable to make any provision for the improvement of the village roads or the subsidiary communications, but intend to do so as soon as the cess collections are made.

18. The amount estimated for repairs is comparatively larger than what was estimated during the past year. The Chairman reports that the increase is due to a larger amount being required for putting the roads in proper order, as they have sustained considerable damage during the heavy rains in August last, and to the fact of provision having been made for repairs to the Doombur bridge which, from the strain put upon it by the flood, has become unsafe for cart traffic.

HILL TRACTS.

19. The amount expended on original works in the Hill Tracts was Rs. 8,954-10-1, and the amount disbursed on repairs and maintenance of roads was Rs. 431-2-5. The amount originally estimated for was Rs. 20,860 and Rs. 1,280 respectively, under the above two heads. Although it was contemplated that a large amount of work should be undertaken during the year under report, almost all the important works were postponed, as they required to be professionally surveyed before they were taken in hand.

20. The detailed information regarding the abovementioned works and repairs have been furnished by the Deputy Commissioner in his annual report herewith submitted. I need not therefore reiterate the same.

21. The sums of Rs. 19,902-0 and Rs. 2,770 have been proposed to be disbursed for original works and repairs respectively during the current cess year. It is contemplated to repair during the current and ensuing years a good many roads and bridges which were washed away or otherwise affected by the late flood. Hence a larger amount than usual has been estimated for repairs.

22. *Establishment.*—Rs. 4,932-4-10 were disbursed during the year under report on account of the road establishment and contingencies. Of this amount Rs. 3,322-0-10 were spent in the district of Chittagong, Rs. 730 in the district of Nookhully, and Rs. 880 were spent by the Deputy Commissioner of the Chittagong Hill Tracts. The amounts originally budgeted for were as follows:—

			Rs.
In the district of Chittagong	3,061
In the district of Nookhully	862
In the Chittagong Hill Tracts	3,180

Hitherto all the district works of Chittagong and Nookhully were undertaken by the Executive Engineer, but on receipt of the Government Resolution No. 1209 of the 8th March 1875, the District Committees were obliged to entertain separate establishments of their own, though all works of importance still remained under the supervision of the abovementioned officer, whose services are being remunerated by a percentage on the outlay on works supervised by him.

23. The total amount of expenditure incurred on account of original works and repairs in this division during the past year amounted to Rs. 66,448-6-3, and that incurred on account of work establishment was Rs. 4,932-4-10, giving a percentage of Rs. 7 on the value of work executed by that agency.

24. In the Chittagong Hill Tracts there was no Executive Engineer, and all the works were executed by Mr. Rosario, Inspector of Police, assisted by a moulur and two overseers. For the extra duty entrusted to Mr. Rosario Rs. 50 per mensem were allowed him under Government orders. Besides the aforesaid employes, the Deputy Commissioner had to appoint a clerk for six months on a monthly salary of Rs. 40 for keeping up accounts of receipts and disbursements.

25. During the year under review an unprecedented flood swept across the Hill Tracts and the northern portion of the Regulation District of Chittagong. The Chairman of the latter district reports that it caused much damage to the masonry works on the roads, while the damage is caused to the Hill Tracts roads is reported by the Deputy Commissioner to be immense, a full description of which will be seen in his paragraph 16.

M. E. LEWIS,
Commissioner.

No. 313LP. dated Noakhully, the 25th March 1876.

From—H. PORCH, Esq., Officiating Magistrate of Noakhully,
To—The Commissioner of the Chittagong Division.

With reference to your letter No. 99GM. of the 8th March 1876, I have the honor to state as follows.

2. Bamboo bridges (38 in number) were constructed on the district dak and police station roads. They last for about one season only.

3. A buttress was made, measuring 1,200 cubic feet, for the Shahabghatta bridge. This bridge has, however, been temporarily abandoned, as it was found that a bridge of the kind estimated for would not stand in consequence of the strong current in the khali there.

4. A portion of the Laksham road, about three miles, has been raised and widened, and the remaining portion between Nowtollah and Barullah was in course of repair. The earth-work done on that portion was 81,099 cubic feet.

5. A portion of the Dewangunge road was also widened to the extent of 449,837 cubic feet. The raising of the masonry portion of the new bridges on this road was not taken up, as materials were not ready.

6. The raising of the masonry works on the six timber-topped bridges on the Laksham road was completed to the extent of 2,534 cubic feet, with earth-work measuring 19,020 cubic feet. Jungly wood posts and planks have been procured.

7. The plastering and raising of the masonry portion of the new bridges on the Begunungee road has been finished to the extent of 1,334 cubic feet; planks have been put on eight bridges. The work remaining to be done is now in progress.

8. Bamboo spurs were constructed to prevent encroachment on the Shahelghatta road with jungle wood posts.

9. Three hundred and seventy-six trees were planted out on some of the road sides.

10. *Rivers and canals.*—The deepening of the Atriattully canal has been completed, and the banks have been raised by the earth dug from the canal.

11. The two heads of the Chaprassy khall were cut to strengthen the passage and to prevent the encroachment on the bridge; across this khall spurs have been made of bamboos and wood to complete the protection of this bridge, which suffered much in last year's flood.

12. *Repairs.*—The station roads have been metalled to the extent of 47,981 cubic feet. The metal used was *khaa ghama*. Further improvements in this respect have been undertaken.

13. *Surface repairs.*—Jungle clearing and filling up holes have been executed on 110 miles of the district roads. The earthwork done on the Edisham road has been dressed to the extent of 124,580 superficial feet, and turfed to the extent of 84,000 superficial feet; 2,000 cubic feet of earthwork has been done on the Laksham road in raising and widening a section, which has also been dressed to the extent of 163,600 superficial feet.

14. The masonry portion of the old bridges on the Dewangunge, Chittagong, and Jukhipore roads have been repaired to the extent of 1,513 cubic feet. The old planks and the posts of the bridges which have deteriorated have been renewed where it was found necessary.

15. The fences put round the trees planted on the road sides have been repaired.

EDUCATIONAL NOTICES.

Rules for the Examination of Candidates for Vernacular Masterships in Bengal.

1. CANDIDATES for vernacular masterships may present themselves for examination at any first grade normal school.

2. The examination shall be held in December every year, concurrently with the annual examination of the normal schools of the first grade, and the same papers of questions that are set to the students of the normal schools shall be set to the candidates for masterships.

3. The examination shall be conducted in three different standards of study corresponding to the three years' course of the normal schools, and all candidates that pass shall be arranged in three grades, each grade having the sub-division of high, medium, and low, according to the proficiency of the candidates.

4. A candidate who obtains 60 per cent. of the total marks and upwards shall be entitled to a certificate of high proficiency in each grade; one who obtains 45 per cent. and less than 60 per cent. shall have a medium certificate; and one who obtains 33 per cent. and less than 45 per cent. shall have a low proficiency certificate.

5. No vernacular master shall, after January 1877, be appointed to the head vernacular mastership of any middle class school who cannot produce a certificate of having passed the teachership examination in the first grade without the special sanction of the Circle Inspector.

6. Candidates who pass in the second and third grades shall be eligible to assistant vernacular masterships in middle schools, and to all vernacular teacherships in boys' schools and girls' schools.

7. Candidates who desire to appear at the examination must send in to the head-master of any first grade normal school, or the Deputy Inspector of his district, an application containing the following particulars on or before the 1st of October each year:—

- (1.) His name.
- (2.) His age.
- (3.) His father's name.
- (4.) Residence (*i.e.*, village, district, &c.).
- (5.) Normal school where he wishes to be examined.
- (6.) Grade of teachership for which he is a candidate.
- (7.) Certificates as to character and antecedents.

8. No fee will be charged to any candidate for the examination for the present, but it will be in the power of the Circle Inspector to refuse admission to any candidate whose antecedents may appear objectionable.

9. No candidate who is below 16 or above 35 years of age shall be eligible to the examination.

FORW WILLIAM, the 1st May 1876.

H. WOODROW, *Director of Public Instruction.*

Rules for the award of Normal School Scholarships.

Young men of the age of 15 years and upwards, who passed the vernacular scholarship examination, may be admitted into normal schools without any further examination.

2. In the event of a sufficient number of admissions not being made under rule 1, it will be in the power of the head-master of the normal school, acting under the orders of the Director of Public Instruction and the Circle Inspector, to invite by public advertisement such candidates as may desire to be admitted, and to subject them to an examination of equal difficulty with that for vernacular scholarships.

3. The examination under rule 2 is to be held so soon, after the result of the vernacular scholarship examination is known, as may be most conducive to the benefit of the normal schools, and not later than the 1st February each year. The annual examination will ordinarily be held in December.

4. A limited number of normal school scholarships will be awarded to those students who most distinguish themselves at the annual examination in December. Such scholarships will be of the value of Rs. 3 a month each; but a scholarship may be raised to Rs. 4 a month if the holder of it distinguishes himself in the examination of the following year. No normal school scholarship will be awarded to any student who shall not have studied at the normal school for at least one year.

5. Scholarships will be liable to forfeiture or reduction for misconduct or want of sufficient progress in study on the part of the holder, with the sanction of the Circle Inspector.

6. Deductions from scholarships for absence from school shall be made in accordance with the rules and practice of the Education Department.

7. The following allotment of scholarships for the first grade normal schools is sanctioned for the present:—

	Rs.
Hooghly Normal School	200
Caldcutta ditto	120
Ranchi ditto	100
Dacca ditto	120
Chittagong ditto	100
Patna ditto	100
Bhagulpore ditto	100
Cuttack ditto	100
Ranchi ditto	100

8. Scholarships not taken up at one normal school under these rules may be transferred to another normal school with the sanction of the Director of Public Instruction.

9. On the application of scholarship-holders, the Director of Public Instruction shall be competent to sanction the transfer of a scholarship-holder from one normal school to another; but such transfer will be sanctioned only upon very strong grounds, such as illness, removal of relatives, &c.

10. Students of normal schools who may not enter them as scholarship-holders shall be eligible for normal school scholarships if they acquit themselves creditably at the annual examinations of the normal schools. Those who actually hold vernacular scholarships will be allowed to retain their scholarships in addition to the normal school scholarships.

11. The head-master of each first grade normal school shall forward, on or before the 1st March of every year, through the Circle Inspector, to the Director of Public Instruction the number of scholarships of each grade awarded to the scholars undergoing training in his school.

12. Scholarship-holders shall not be required to pay any tuition fees, but all other pupils of the pundit's department shall pay a fee of eight annas a month at Hooghly, Calcutta, Dacca, and Ranchi, and four annas a month at the five remaining schools.

FOR THE SECRETARY, the 1st May 1876.

W. WOODROW, Director of Public Instruction.

MOULVIE BRADLEY BROWN, Deputy Inspector of Schools, Bhagulpore, has been granted privilege leave for sixteen days from the 8th to the 23rd instant.

G. N. BARLOW, Offg. Commissioner.

BHAGULPORE, the 6th May 1876.

DRAFT NOTIFICATION.

No. 184, dated 21st May 1875.

No. 171.—*Notification.*—The following rules, having reference to the Main Western Canal, first section; the Arrah Canal; the Buxar Canal, first section; the Main Eastern Canal, first section; and the Patna Canal, have been passed this day by the Lieutenant-Governor under the provisions of Sections XI and XII of the "Canals Act, 1864" (No. V, B. L. C.):—

1. Every vessel, on entering any of the above canals, shall be liable to measurement for the purpose of ascertaining the amount of toll the vessel should pay according to the schedule of rates authorized by Government to be charged on the canal.

11. The tonnage of every vessel, whether laden or empty, shall, for the purposes of the "Canals Act, 1864," and of these rules, be determined by the following measurements:—

(a.) The product of half the length of the vessel, from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(b.) The measurement of the length is to be made in feet, rejecting inches, and the measurement of the breadth and depth in feet and quarters of feet, rejecting portions of less than a quarter of a foot.

(c.) In calculating the amount of toll to be levied on vessels exceeding 100 maunds tonnage, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 20 and not exceeding 50 maunds, is to be charged = 25 maunds only; exceeding 50, and not exceeding 75 maunds, to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds tonnage is to be charged. Toll will be charged on vessels under 100 maunds tonnage on the actual measurements of the vessels, omitting fractions of tens of maunds.

III. Every vessel entering any of the above canals shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date the vessel entered the canal, the point to which it may proceed in the canal, the tonnage of the vessel, the amount of toll charged, and the number of days for which the vessel may remain in the canal, and the date of such last day. The number of days which the vessel may remain in the canal without additional payment shall be calculated at the rate of one day for every eight miles, or portion of eight miles, to be traversed.

IV. Toll may be paid at the first station, either for the entire number of toll-stations on the line of navigation, or for any less number of stations.

V. The tickets thus given may be demanded for inspection by any duly authorized canal officer, and must be kept on board and at hand for that purpose. They must be shown at each toll-station the vessel has to pass, as a passport that no further payment of toll is to be demanded. The tickets shall be delivered up at the last toll-station.

VI. Owners of vessels may compound by the payment of a fixed sum for the use of the whole or a portion of any of the above canals for any period that may be agreed upon, not exceeding one year. Each vessel so compounded for shall be furnished with a ticket showing the amount of toll paid, the period for which the toll has been compounded for, and the limits of the canal within which the vessel may pass; such ticket shall be kept on board the vessel, and shall be produced when required under rule V, but shall be given up only on the date of the expiry of the period for which granted, and at the station from whence issued.

VII. Duplicates of lost tickets, of which the numbers and the dates of entry can be satisfactorily established, will be granted by officers in charge of toll-stations on payment of a fee of one rupee.

VIII. Vessels remaining in the canals for a period exceeding that allowed under rule III will pay a demurrage of eight annas per 100 maunds per diem for each day or part of a day that they may remain in excess.

IX. No boats above 18 feet beam over all, and no rafts or floats of more than 10 foot width and 150 in length, will be allowed to enter the canals.

X. It will not be compulsory for the locks to be opened to single vessels of less than 500 maunds burden, except in the case of mail or despatch boats; but the locks shall be opened for the passage of boats at least twice a day.

XI. Vessels must have their masts fitted so that they can be let down with ease and speed; and when under sail, vessels must always keep in the middle of the canal. When being tracked, vessels are, as far as practicable, to keep to their port or left side of the canals.

XII. All vessels anchoring at night are to keep to their port or left bank of the canals.

XIII. Only one vessel shall be allowed to make fast along and in a line with the canal banks, and no vessel shall be made fast, or be placed outside of vessels so secured, without the permission of a canal officer. No vessels shall, however, be placed in such a position as to endanger the safety of other vessels, to obstruct their passage, or to impede the navigation; and no bamboos or poles shall be allowed to be erected on vessels when at anchor. Any infringement of this rule will be punishable by a fine not exceeding Rs. 5 for each offence.

XIV. Every vessel when put to shall be securely fastened, and shall at all times have some person in attendance on board of it. Any infringement of this rule will be punishable by a fine not exceeding Rs. 5 for each offence.

XV. In every case of wreck or obstruction of the channel by sunken vessels, the canal officers may call upon the person in charge of the vessel to remove the same without delay, and shall give every reasonable assistance towards so doing. But should the owner of the vessel or raft be not forthcoming, or should he not use reasonable expedition in removing the obstruction, or should he decline or fail to use proper assistance which may be offered to him by the canal officers, these officers may undertake the removal of the obstruction themselves at the cost of the owner of the boat, recovering the expense in the manner laid down in Section IX of the "Canals Act, 1863."

XVI. If the canal officers be unable to ascertain the name and place of business or of abode of the owner of the cargo of any vessel or boat seized under the "Canals Act," he shall notify the seizure in the most public manner available.

XVII. In the event of any damage or injury being occasioned to the canal works by wilfulness or negligence on the part of any person in charge of a vessel, the canal officers may detain the vessel within the canal for a period not exceeding 24 hours: provided that

within that period the canal officers shall lodge a complaint against such person in charge of the vessel before a Magistrate under Section XVI of the "Canals Act."

XVIII. The banks or berms of the canals shall not be used as wharves for the deposit of goods, under a penalty of Rs. 10 for each offence; but, except in special cases, when the permission of the canal officers will be necessary, all articles shall be removed to the outer banks of the canals, and all such articles shall not be finally removed from within the boundaries of the canals within a period of six days after being so deposited shall be liable to the charge of four annas per 100 manuds.

XIX. The canals may be closed once a year for effecting the necessary repairs to them, on one month's notice of the intention so to close them; but in the event of any sudden emergency, the canals may be closed at any time without prior notice, and no claim shall be made in such case by owners of vessels or others for compensation on account of detention.

XX. All offences against the provisions of these rules shall be punishable as provided for in Section XVIII of the "Canals Act, 1864," and all fines imposed may be recovered in the manner mentioned in Section XVII of the same Act.

XXI. The term "canal officers" in the foregoing rules shall include the persons allotted to in Section VIII of the "Canals Act, 1864," and any other persons who may be specially appointed to exercise such powers by the person appointed to collect the tolls.

No. 172.—*Declaration*.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz. for enlarging the compound of bungalow No. 12, in mouzah Aspara, pergunnah Masaurah, zillah Patna, it is hereby declared that for the above purpose a plot of land measuring 1 rood and 2 poles, more or less, adjoining the bungalow compound aforesaid of the 62nd mile of the Patna Branch Canal as marked out by the Irrigation Branch of the Public Works Department, is required within the aforesaid village of Aspara, pergunnah Masaurah, zillah Patna.

The land plan of the above strip may be seen in the Office of the Assistant Engineer at Bikram between the Office hours every day (Sundays and other holidays excepted).

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

EDUCATIONAL NOTICES.

Rules for the Examination of Candidates for Vernacular Masterships in Bengal

1. CANDIDATES for vernacular masterships may present themselves for examination at any first grade normal school.

2. The examination shall be held in December every year, concurrently with the annual examination of the normal schools of the first grade and the same papers of questions that are set to the students of the normal schools shall be set to the candidates for masterships.

3. The examination shall be conducted in three different standards of study corresponding to the three years' course of the normal schools, and all candidates that pass shall be arranged in three grades, each grade having the sub-division of high, medium, and low, according to the proficiency of the candidates.

4. A candidate who obtains 60 per cent. of the total marks and upwards shall be entitled to a certificate of high proficiency in each grade; one who obtains 45 per cent. and less than 60 per cent. shall have a medium certificate; and one who obtains 33 per cent. and less than 45 per cent. shall have a low proficiency certificate.

5. No vernacular master shall, after January 1877, be appointed to the head vernacular mastership of any middle-class school who cannot produce a certificate of having passed the teachership examination in the first grade without the special sanction of the Circle Inspector.

6. Candidates who pass in the second and third grades shall be eligible to assistant vernacular masterships in middle schools, and to all vernacular teacherships in lower schools and girls' schools.

7. Candidates who desire to appear at the examination must send in to the head-master of any first grade normal school, or the Deputy Inspector of his district, an application containing the following particulars on or before the 1st of October each year:—

- (1.) His name.
- (2.) His age.
- (3.) His father's name.
- (4.) Residence (i.e., village, district, &c.).
- (5.) Normal school where he wishes to be examined.
- (6.) Grade of teachership for which he is a candidate.
- (7.) Certificates as to character and antecedents.

8. No fee will be charged to any candidate for the examination for the present, but it will be in the power of the Circle Inspector to refuse admission to any candidate whose antecedents may appear objectionable.

9. No candidate who is below ■ or above 35 years of age shall be eligible to the examination.

A. FOUR WILLIAM, the 1st May 1876. H. WOODROW, *Director of Public Instruction*.

Rules for the award of Normal School Scholarships.

Young men of the age of 15 years and upwards, who passed the vernacular scholarship examination, may be admitted into normal schools without any further examination.

2. In the event of a sufficient number of admissions not being made under rule 1, it will be in the power of the head-master of the normal school, acting under the orders of the Director of Public Instruction and the Circle Inspector, to invite by public advertisement such candidates as may desire to be admitted, and to subject them to an examination of equal difficulty with that for vernacular scholarships.

3. The examination under rule 2 is to be held as soon, after the result of the vernacular scholarship examination is known, as may be most conducive to the benefit of the normal schools, and not later than the 1st February each year. The annual examination will ordinarily be held in December.

4. A limited number of normal school scholarships will be awarded to those students who most distinguish themselves at the annual examination in December. Such scholarships will be of the value of Rs. 3 a month each; but a scholarship may be raised to Rs. 4 a month if the holder of it distinguishes himself in the examination of the following year. No normal school scholarship will be awarded to any student who shall not have studied at the normal school for at least one year.

5. Scholarships will be liable to forfeiture or reduction for misconduct or want of sufficient progress in study on the part of the holder, with the sanction of the Circle Inspector.

6. Deductions from scholarships for absence from school shall be made in accordance with the rules and practice of the Education Department.

7. The following allotment of scholarships for the first grade normal schools is sanctioned for the present:—

					Rs.
Hughly Normal School	200
Calcutta ditto	120
Banckah ditto	108
Dacca ditto	120
Chittagong ditto	100
Patna ditto	100
Bhagulpore ditto	100
Cuttack ditto	100
Ranchi ditto	100

8. Scholarships not taken up at one normal school under these rules may be transferred to another normal school with the sanction of the Director of Public Instruction.

9. On the application of scholarship-holders, the Director of Public Instruction shall be competent to sanction the transfer of a scholarship-holder from one normal school to another; but such transfer will be sanctioned only upon very strong grounds, such as illness, removal of relatives, &c.

10. Students of a most school who may not enter them as scholarship-holders shall be eligible for normal school scholarships if they begin themselves creditably at the annual examinations of the normal schools. Those who already hold vernacular scholarships will be allowed to retain them while they are in addition to the normal school scholarships.

11. The head-master of each first grade normal school shall forward, on or before the 1st March of every year, through the Circle Inspector, to the Director of Public Instruction the number of scholarships of each grade awarded to the scholars undergoing training in his school.

12. Scholarship-holders shall not be required to pay any tuition fees, but all other pupils of the pundits' department shall pay a fee of eight annas a month at Hughly, Calcutta, Dacca, and Banckah, and four annas a month at the other normal schools.

FORWILLIAM, the 1st May 1876.

H. WOODROW, Director of Public Instruction.

1. The Calcutta Medical College Session of 1876-77 will commence on the 15th June next.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal of the Medical College between the hours of 10 A.M. and 4 P.M., on or before the 15th June next, when the ten (10) vacant free presentations will be awarded. These are given to candidates upon their relative position in the University First Arts, B.A. and B.L. Examination, preference being given to those who have passed the highest examination.

3. The possession of the "First Arts" certificate of the Calcutta University will entitle students to enter the Medical College.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its degrees in medicine and surgery.

5. The candidates who may fail in obtaining free presentations may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the college, provided they enter into a guarantee to follow out the college curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students on payment of a fee of Rs. 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

6. The certificate of lectures and hospital attendance of the college are recognised by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecaries of London.

T. EDMONSTON CHARLES, M.D.,

for the Principal, Medical College.

CALCUTTA MEDICAL COLLEGE OFFICE, the 16th May 1876

NOTIFICATION.

The 16th May 1876.—In continuation of the orders published at pages 358-59 of the *Calcutta Gazette* of 24th March 1875, the Lieutenant-Governor is pleased to notify that at the granting of a 20 years' lease under those orders, after the expiry of the preliminary lease, and also at every subsequent renewal of any such 20 years' lease, the amount of rent to be paid for the land per acre will be fixed at an amount not exceeding the rate of rent paid per acre in the neighbourhood at the time for the highest class of land under ordinary arable cultivation.

2. If at any future time the administration of the tracts in the Western Doars under tea cultivation should entail on the State any considerable increase of expenditure, it will be competent to the Government, with the sanction of the legislature, to impose such special taxation as may be deemed necessary to defray the additional expenditure so incurred, either by raising the rent or in some other mode. But under no other circumstances will the rent which has been once fixed for a term of years on the principle above enunciated be raised during such term.

RESOLUTION.

GENERAL DEPARTMENT—MARINE—No. 1636.

Calcutta, the 27th May 1876.

READ—

The following papers on the subject of the grounding of the ship *Mahableshwar*:—

Letter from Messrs. Lyall, Rennie and Company, dated the 29th February 1876.

Letter from the Officiating Master-Attendant, No. 1739, dated the 5th March 1876.

Letter from the Officiating Deputy Master-Attendant in charge, No. 2053, dated 13th April 1876.

Letter to the Deputy Master-Attendant in charge, No. 1173, dated 21st April 1876.

Letter from the Officiating Deputy Master-Attendant in charge, No. 3269, dated 5th May 1876.

1. Messrs. Lyall, Rennie and Company have complained that this ship, of which they are agents, grounded in the Rungafulla Channel on the 14th January, when going to sea under the pilotage charge of Mr. Wells, Acting Branch Pilot. They say that an alteration in the channel was communicated to the Master-Attendant on the previous day, the 13th, but was not made known, as it should have been, to the pilots.

The ship's grounding, they add, has caused a loss of Rs. 25,000; and they request that enquiry may be made into the practice of the Master-Attendant's office, in giving information to pilots of changes which occur in the channels.

2. In this case, the Lieutenant-Governor considers that it is clearly established that the pilot and the Master-Attendant's office were in no way in fault, and that the entire blame attaches to the River Surveyor. It is the duty of the River Surveyor, when he finds any change in the channels, at once to send to Bankshead a report and a duplicate sketch. The report is copied into the channel order book, and one of the sketches is kept there: this makes the change known to the pilots in Calcutta, who are bound to inform themselves of all entries in the channel order book. The original report, with the duplicate sketch, is then sent down to the Sandheads, for the information of the pilots on board the brigs.

3. Besides these special reports and sketches, the River Surveyor sends up, from time to time, charts showing those alterations which have already been embodied in the special reports. These charts are not examined in the Master-Attendant's office; they are sent on at once to the Surveyor-General for reproduction by photozincography, and copies are then available for sale to merchants and to the public. It is understood that no change will appear in the chart, which has not already been made the subject of a special report.

4. The River Surveyor, Mr. Laycock, had sent up, on the 28th December, a report, with sketches in duplicate, of certain changes in the Rungafulla Channel. On the 8th January he sent a chart, which reached the Master-Attendant's office on the 13th, and was as usual sent on to the Surveyor-General without examination. But this chart showed an important change in the channel, of which no report and sketch had previously been given. A spit of sand had run out into the usual navigation channel, and it was upon this spit that the *Mahableshwar* grounded. If the channel had been in the condition shown by the report and sketch of the 28th December, the pilot would have had $23\frac{1}{2}$ feet of water at the place where the ship grounded. She was drawing $21\frac{1}{2}$ feet, and the chart of the 8th January showed $20\frac{1}{2}$ feet in this place.

5. Mr. Laycock's explanation is to the effect that he thought the change of no great importance, and that, if the pilot had kept more to the eastward, he would have had plenty of water. The Master-Attendant shows, in the 8th paragraph of his letter, that this explanation cannot be accepted as satisfactory.

6. The Master-Attendant was not, the Lieutenant-Governor thinks, to blame for not examining the chart. He might reasonably presume that it would not contain any information which had not previously been specially communicated. The pilot was not to blame for not keeping further to the eastward, as he had every reason to suppose that he was keeping a perfectly safe course.

7. The River Surveyor seems to the Lieutenant-Governor to have committed a grave neglect of duty in omitting to report, in the usual manner, a material change in one of the navigating channels; and it is to this neglect that the disaster to the ship is to be attributed. Mr. Laycock is in general honourably distinguished by vigilance and attention to his duties, and the Lieutenant-Governor regrets the necessity for passing this censure upon him. But in this case it is evident that Mr. Laycock's omission to report the alteration resulted in causing a considerable loss of property, and endangered the safety of the vessel and the lives of those on board. The Lieutenant-Governor therefore directs that Mr. Laycock be informed that his neglect of duty in this instance is regarded by the Government with serious displeasure, and that he be warned that inattention and oversight cannot be excused in an officer who holds so responsible a post as that of River Surveyor.

H. J. REYNOLDS,
Offg. Secy. to the Govt. of Bengal.

RULES.

GENERAL DEPARTMENT.—MARINE.

Calcutta, the 26th May 1876.

The following rules, for the appointment of a qualified Board for the Examination of Masters, Mates, and Engineers of the Mercantile Marine, having been approved by His Excellency the Governor-General in Council, are published for general information.

The Examination Board, for conducting the examinations for granting certificates of competency to seamen, shall be constituted as follows:—

1. Senior officer of the Royal Navy present, for the time being, at the head-quarters of the Marine Survey Department, shall be *ex-officio* examiner in navigation; provided that he be an officer of the navigating branch of the Royal Navy, and of not lower rank than a Staff Lieutenant.

2. (a).—The examiners in seamanship shall be three experienced masters who have been recently in successful command of merchant vessels. These may be selected either from the commanders of vessels lying in the port of Calcutta, or from the surveyors of shipping in the port.

(b).—They shall be appointed by the Lieutenant Governor on the nomination of the Master-Attendant.

(c).—The permanent President of the seamanship examiners shall be the Deputy Master-Attendant.

3. (a).—Three engineers shall be appointed by the Lieutenant-Governor, on the nomination of the Chief Engineer of the Dockyard, as examiners in steam. These will usually be selected from the superintending engineers of the different steam companies in the port.

(b).—The Chief Engineer of the Dockyard shall be the permanent President of the engineer examiners.

4. The examinations shall be held quarterly, on the first Monday of January, April, July, and October, or on the first open day thereafter, if the day fixed should be an authorized holiday.

5. The examiners shall receive the following fees for each examination:—

	Rs.
Seamanship examiners	32 each.
